## Versioning and Contribution History

The following is the *document control* for revisions to this document.

Version	Date	Reason	Modified by
1	13/01/2020	Creation	Francesco Lamonaca
2	27/02/2020	Suggestions by WP4 coordinator	Francesco Lamonaca

Please include here also information on: when was the concept note submitted, when was feedback received, etc.

**Project Number:** 574090-EPP-1-2016-1-IT-EPPKA2-CBHE-JP

**Project Acronym:** eDrone

**Result:** WP4 – Project Development

**Deliverable number and title:** D4.2 –ICT platform Setup

**Type of deliverable:** Report

<b>Required date of delivery:</b> 16 March 2020
<b>Date of last version delivery:</b> 28 March 2020
<b>Work package:</b> WP4
<b>Lead responsible partner:</b> P1-UNISAN
<b>Responsible person:</b> Francesco Lamonaca
<b>Other cooperating partners:</b> All Partners
<b>Total number of pages:</b>

Elaborated by: Prof. Francesco Lamonaca, University of Sannio (P1)

Name, affiliation (PARTNER)

**Associate Partners**

## Introduction / Foreword

This report would be a reference for the understanding and use of the ICT Platform. It is constituted by three main sections: a public, private sections and a Moodle repository. On the public section the Partners share with the public and the potential stockholder the aims, goals, achieved results of eDrone, deliverables, news, events, pictures, videos and so on.

On the private area, there are supporting documents used by the Partners to share/collect technical and economic information.

On the Moodle platform, teachers make available their lessons and supporting materials to students.

### Associate Partners

## eDrone website – Public Section

**eDrone website <http://www.edroneproject.org/>**

The eDrone Website is online since the beginning of February 2017 under the University of Sannio server at the address <http://www.edrone.unisannio.it/>. Due to technical reason, in January 2020 was migrated at the address <http://www.edroneproject.org/>.

It was developed using the standard WEB instruments and programming languages. The website was hosted and maintained by the Italian University Grantholder, in its role as TechReh project coordinator and now it is under the managing and responsibility of the eDrone partner UVS ROMÂNIA, that will host and manage it for next 10 years in order to ensure accesses to the project website after the ending of the project funding period.

A statistics analyser has been activated. The website is W3C compliant, as far as accessibility is concerned.

The goal of the eDrone Website is to promote and disseminate all project activities and results (public section) and to satisfy partners' needs (reserved area).

The aim of eDrone proposal is to define a learning environment to deliver more opportunities to access new competences related to the use of drone technologies in professional activities.

These new competences refer in particular to the use of advanced ICT solutions for the use of drones and of the data acquired through drones that may go a long way towards the goals and priorities in terms of optimization of the professional competences that have already been stated in the **Socio-economic Development Strategy 2020** of all the **Partner Countries**, and in terms of creating new job opportunities, especially for youth that is strongly encouraged by **Europe 2020 strategy** as stated in the **European Commission Communication "Youth on the Move"**.

The use of drones by professionals will open new scenarios requiring practical and theoretical knowledge that are beyond the simple driving and maintenance of drones:

- (i) drone mechanical characteristics,
- (ii) sensing equipment,
- (iii) processing and use of the acquired information, and
- (iv) national and local laws regulating their use.

The main objective of the eDrone project is to provide higher education institutions in the **Partner Countries** with effective and efficient instruments to setup Offices for Education for Drones (OED), for the transferring of all the above mentioned knowledges to professionals of each **Partner Country**.

Moreover, the project aims at realizing an innovative ICT-based infrastructure employing enhanced technologies and methodologies allowing all the **Partner Countries** to create a network for sharing educational contents and databases to professionals. Such infrastructure will be used to support OED in the technological and scientific transfer to professionals.

The **Programme Countries** will transfer their know-how and expertise for the achievement of the eDrone objectives by training the **future teachers** of the OED and by supporting them in the first edition of the OED.

## Activities list & Deliverables

The screenshot shows a web browser displaying the 'Activities List & Deliverables' page of the eDrone project. The page has a sidebar menu with links to Project Objectives, Time Plan, Activities List & Deliverables (selected), Partners, Associated Partners, Contacts, Master Thesis, ICT didactical framework, and Milestones. The main content area is titled 'Activities List' and contains three sections:

- WP1 - User Needs and State of Art Analysis**
  - [A 1.1 - State of the art report on last generation technologies for drones and sensors supporting remote control](#)
  - [A 1.2 - Workshops on Technology of Drones](#)
  - [A 1.3 - Visits to enterprises](#)
  - [A 1.4 - User needs document](#)
- WP2 - Regulatory State of Art Analysis**
  - [A 2.1 - State of Art of drones laws in Programme Countries](#)
  - [A 2.2 - State of Art of drone laws in Partner Countries](#)
  - [A 2.3 - Workshop on Law and User needs](#)
  - [A 2.4 - Regulatory needs report](#)
- WP3 - eDrone courses deployment and set-up**
  - [A 3.1 - Course program structure and content design](#)
  - [A 3.2 - ECTS recognition of the course](#)

At the bottom of the sidebar, there is a 'News from eDrone' section with a '+' icon, and a 'Login Form' and 'Newsletter' link.

Hi igorovich,

Partners

UNIVERSITY OF SANNIO

The University of Sannio is organized in 4 Faculties, Engineering, Economics, Law and Natural Sciences, providing 12 BSc, 12 MSc. and 5 Ph.D. courses to about 8000 enrolled students. Within the Dept of Engineering, the research group on Signal Processing and Measurement Information has a long history of applied research and technology transfer as well as of collaboration and educational exchanges with foreign countries. These activities have been mainly financed by

- the Italian Ministry of Education, University and Research on the National Operating Programme 2000-2006 (2 infrastructure projects) and the Internationalization Programme (2 teacher exchange projects with Croatia and Slovakia);
- the EU on the Leonardo LLP (2 knowledge transfer projects);
- the Italian Ministry of Economy (1 project on innovation technology transfer in the measurement field). The achieved results have

## Video Gallery

The screenshot shows a web browser window displaying the 'Video Gallery' page of the eDrone project. The browser's address bar shows the URL 'edroneproject.org/index.php/video-gallery'. The page layout includes a left sidebar with a 'Main Menu' containing links like 'Project Objectives', 'Time Plan', 'Activities List & Deliverables', 'Partners', 'Associated Partners', 'Contacts', 'Master Thesis', 'ICT didactical framework', and 'Milestones'. Below the menu is a 'News from eDrone' section and a 'Login Form' with fields for 'Username', 'Password', 'Secret Key', and a 'Remember Me' checkbox. The main content area is titled 'Video Gallery' and features two video thumbnails. 'Video #1' is titled 'Educational for drones - Uri Sanno e University of Armenia' and shows a woman speaking. 'Video #2' is titled 'Erasmus+ eDrone Project' and shows a man working on a laptop. Both videos have 'Like' and 'Tweet' buttons, and 'Guarda più tardi' and 'Condividi' options. The Windows taskbar at the bottom shows the date as 14/01/2020 and the time as 16:54.

## Moodle Platform Structure

The moodle platform is organized with a Star topology. From the eDrone Project website, as said before, it is possible to reach the ICT didactical framework. This is the center of the star, containing the CCT course didactic material (logically the origin of the didactic contents of the other Partner Country Moodles. In the main page of the ICT didactical framework there are the link to the 4 Partner Country Moodles (Armenia, Belarus, Georgia, Moldova) together with the credentials to access them. For the access to the CTT didactic content, the username is **admin**, the password is **Mamma1982\$** (please note it is case sensitive). In case of problem please contact [flamonaca@unisannio.it](mailto:flamonaca@unisannio.it).

www.edroneproject.org/moodle/

Co-funded by the  
Erasmus+ Programme  
of the European Union

You are not logged in. (Log in)

For the didactic materials developed by the Program Partners in Armenia, Belarus, Georgia and Moldova, you have to access to their Moodle platforms. To this aim use the following links and use the username and password here provided.

**eDrone Moodle in Armenia**

It contains all the didactic material supporting the CIA activities in Armenia, including *Curricula*.

The username is: *NOT REQUIRED, it is open*

The password is: *NOT REQUIRED, it is open*

For any problem please contact the the 'e-courses' administrator, Mr. Grigor Babayan:  
[grigor.babayan@seua.am](mailto:grigor.babayan@seua.am)

**eDrone Moodle in Belarus**

It contains all the didactic material supporting the CIA activities in Belarus, including *Curricula*.

The username is: *rossokha*

The password is: *6705850*

For any problem please contact the the 'e-courses' administrator, Mr. Yauheni Rassokha:  
[evgeni\\_ros@mail.ru](mailto:evgeni_ros@mail.ru)

**eDrone Moodle in Georgia**

## How To Add Moodle Resources

1. The URL for eDrone eLearning Platform is <http://www.edrone.unisannio.it/moodle/>

After Login, you will be shown the list of your courses.

Please select the course you need to add Resources.

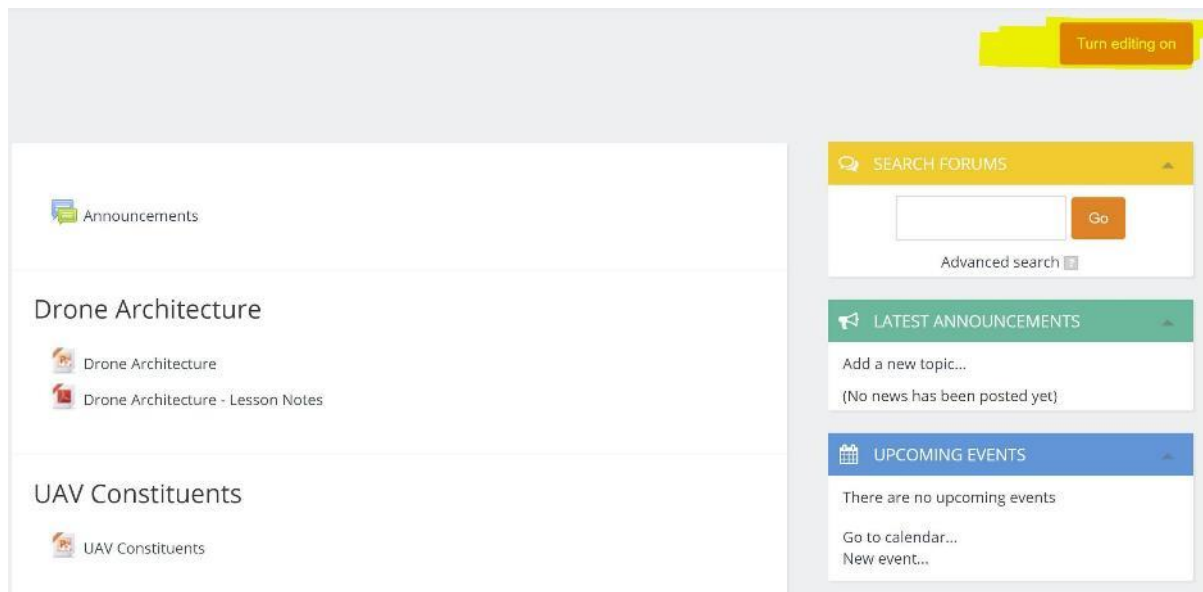

The screenshot shows the Moodle dashboard for a user named Yasmina Bestaoui. At the top, there are logos for the Erasmus+ Programme and the eDrone project. The dashboard is divided into several sections:

- NAVIGATION:** A sidebar menu with links to the Dashboard, Site home, Site pages, and My courses. Under My courses, a list of courses (C1 to C8) is displayed.
- COURSE OVERVIEW:** A central section showing a list of courses. The first course, "C1. Drone Architecture", is highlighted in yellow. Below it are "C2. Drone Avionics" and "C3. Drones Equipment for Measurement and Monitoring".
- PRIVATE FILES:** A section on the right indicating "No files available" and providing a link to "Manage private files...".
- ONLINE USERS:** A section showing the user's name, "Yasmina Bestaoui", and a status of "(last 5 minutes)".
- LATEST BADGES:** A section indicating "You have no badges to display".
- CALENDAR:** A section at the bottom right with a calendar icon.

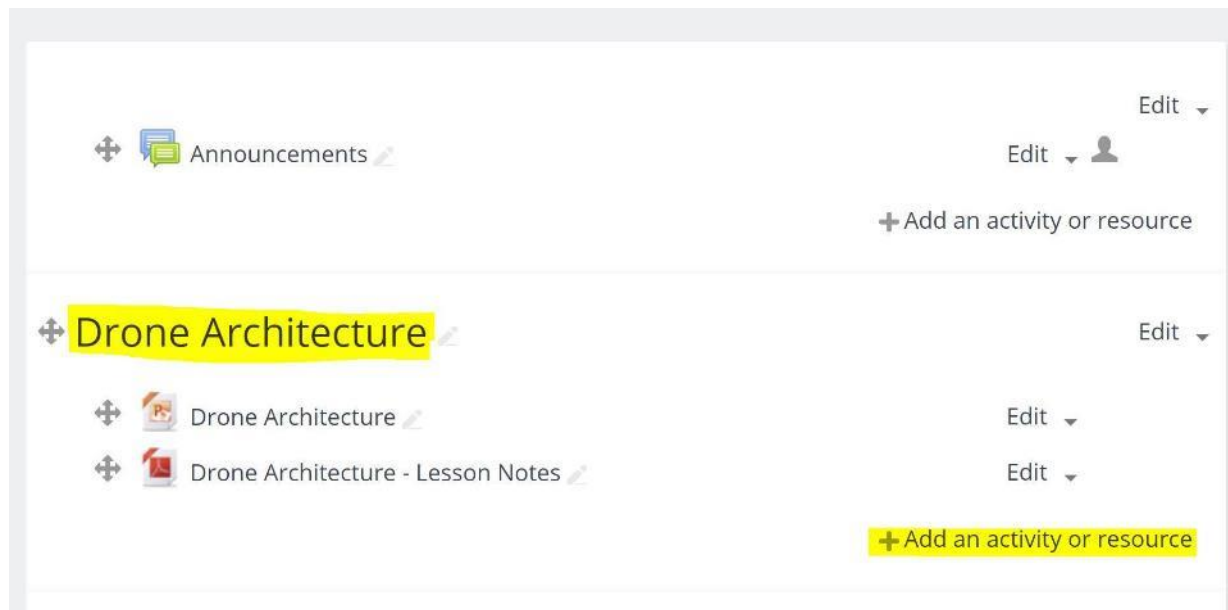

2. The course is already structured in 10 Modules. Click on "Turn Editing On" in order to start the editing process.

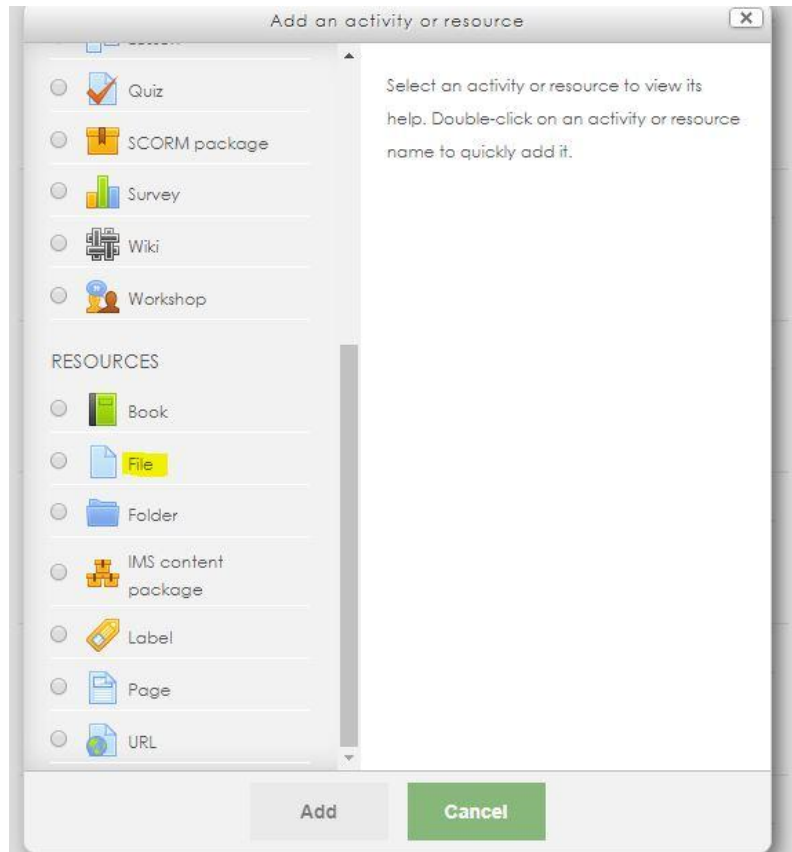

3. You can modify the name of the module clicking on the name. In order to add resources, click on "Add an activity or resource".

4. You can add content as PDF file or PPT presentation.

Please select "File" item from the list, then click on "Add" button.

## Associate Partners

Belarusian Federation  
of Unmanned Aviation

5. In the next page you can upload the file. Please fill the form with the mandatory fields. In order to upload the file, you can "*drag and drop*" the file in the related field. Please wait for upload to finish, then click on "Save and return to course".

## eDrone website map

The map of the website is developed by using the free software available on line at the address:

<https://www.mysitemapgenerator.com>

The link to the website map is:

[https://www.mysitemapgenerator.com/en/download/2213398\\_506.html?html](https://www.mysitemapgenerator.com/en/download/2213398_506.html?html)

The map was done the 27/02/2020 and is continuously growing thanks to the recent advancement in the deliverables production (especially as concern dissemination and exploitation activities) and the news, events, and testimonial sections.

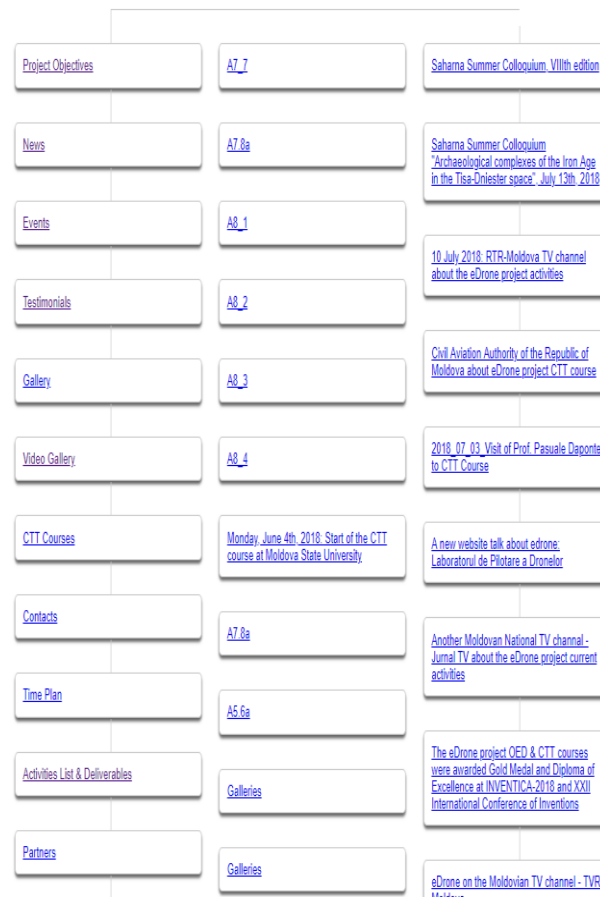

In order to make this report self-contained, in the following the map is reported as image.
